

# R Markdown Tutorial

William Murrah

02/13/2015

This tutorial was developed to introduce DARA Team members to R Markdown. It focuses on topics relevant to what we do in the FOCAL lab, emphasizing the skills we will need to generate reports. I will not go over the basics of the **Markdown** markup language. That is covered well in the help files, which can be accessed by clicking in the ‘?’ in the menu of an R Markdown document.

6	2	4	1
8	12	0	2

I read this really cool article the other day (Kim et al., 2014).

C. E. Cameron et al. (2012) said some cool stuff.
